

# Academic All-District Award

The Central District of the Texas Girl's High School Lacrosse League (TGHSLL) is very interested in promoting the concept of "student-athlete". This award is meant to recognize those girls that maintain a high level of academic achievement while playing for their school's Women's Lacrosse Team.

This award is given to those players, Varsity or JV, that maintain a grade average of 90 or more during the lacrosse season. It is up to the coach, team sponsor, and club president to determine, with the school registrar, the student's grade average and present the award.

The certificate document file is available for your use. Individual teams will have the responsibility of printing the award on certificate paper and distributing the award to it's qualifying members at the end of the season.

To get a copy of the certificate document file please contact [ctgirlslax@gmail.org](mailto:ctgirlslax@gmail.org).
